It has been founded with the aim of pioneering a dynamic forum, for dissemination and sharing of constructive viewpoints in the field of Arbitration, Mediation, Negotiation, Conciliation and all other aspects of ADR.

We encourage cognizant academic discourse for forming an elemental understanding of the innumerable complexities and transitional and latest developments in the domain of Alternative Dispute Resolution. Through this platform, we strive to promote pedagogical discussions and dialogue amongst ardent readers, tailoring a holistic approach towards ADR.

We publish original and authentic works of prime calibre, which are evaluated by independent authorities with premiere expertise in the field of ADR. We welcome professional comments from our readers for intellectual and fruitful discussions, however, any comments of personal nature or unrelated to the topic will not be entertained. With this initiative, ILSCA aims to cultivate the ADR culture to build a robust non-adversarial dispute resolution system in the nation.
