A need was felt to make the 1<sup>st</sup> year law students conscious about various facets of law. Thus, we took up an initiative and started a student centric programme named 'Vidhishilpakar' for 1<sup>st</sup> BA LL.B and 'Law Buzz' for 1<sup>st</sup> LL.B students. The students were divided into number of groups (based on medium of language, marks etc.) and each group had heterogeneous participants. This helped in overall development and collaborative team effort amongst all.

The first activity was 'Analysis of Public Notices' wherein each group was assigned to study 3 notices and prepare an oral and written submission. The next activity dealt with 'Drafting of Rules'. This activity was done in order to make the students aware and effectively learn about the structure and integrities of the legislative drafting.
